

PRDnationwide

Dear Property Enthusiast,

Hello our website for our latest project One Airlie is now live, www.oneairlie.com.au

Please take a moment to experience this amazing project and certainly one the town has been crying out for, for some time - we now have an address comparable to Hastings Street, Noosa and other iconic Australian streets. Please refer your friends and clients to the site as well.

Thank you

Christie Leet

Principal

There is only one waterfront address

[One Airlie](#) is the best real estate I have seen in my 28 year career, (and that's saying something), and I'm delighted to be able to share it with you. I've been involved at [Port of Airlie](#) and from day one I've always said to myself - **"that's the one."**

I have always thought Airlie Beach needed the kind of "signature address" that we see in other lifestyle hot spots. Noosa has Hastings Street and Palm Beach has Ocean Road. We hadn't found anything to earn that status in the Whitsundays until now, with [One Airlie](#) - the ultimate waterfront address.

Priced from \$495,000 (waterfront from \$895,000) and generous lots sizes from 752sqm to 2242sqm.

With site boundaries determined by the high tide mark, **(yes to the water)** there is literally nothing between you and the wonders of the Coral Sea - [click here for a site plan](#)

Your Very Own Marina Berth

For those nautically inclined, your very own marina berth at your back door. [\(click here for limited marina berth availability\)](#) Yes, this ultimate address is now available to a select few - this is the last waterfront land development [\(click here for Waterfront Research Report\)](#) at Airlie Beach, arguably the most exclusive one square kilometre of waterfront lifestyle on the planet.

Experience Airlie Beach by clicking on the video below and immerse yourself in the unique Airlie lifestyle at your ultimate waterfront address.
